

Witch House Instructions

- You will need to print this template on a piece of white cardstock.
- Color each piece as desired.
- Cut out each piece using a pair of scissors with adult supervision.
- Glue on the three pieces to a paper plate and continue to decorate the Witch House as desired. Add windows, doors and cut the very bottom edge straight across to make a flat edge where your house would meet the ground.
- Share your projects on social media and hashtag #swlakids.
